

Conclusion

The applicant has deleted old claims 1-7 and added new claims 8-15 to define the invention more particularly and distinctly so as to overcome the rejections and define the invention patentably over the prior art.

For all of the above reasons, applicant submits that the specification and claims are now in proper form, and that the deleted claims 1-7 new claims 8-11 define patentably over the prior art. Therefore the applicant submits that this application is now in condition for allowance, which action is respectfully solicited.

Conditional Request For Constructive Assistance

Applicant has amended the specification and claims of this application so that they are proper, definite, and define novel structure which is also unobvious. If, for any reason this application is not believed to be in full condition for allowance, applicant respectfully requests the constructive assistance and suggestions of the Examiner pursuant to M.P.E.P. § 107.03(d) and § 707.07(j) in order that the undersigned can place this application in allowable condition as soon as possible and without the need for further proceedings.

Very Respectfully Submitted,
